Det 805 Medical Liaison for all medical questions or follow-up with the CRS at the Trigon.
Email: DET-805-CRS@corps.tamu.edu Phone: 979-845-7611 Fax: 979-845-3619

Login to <https://www.dodmets.com> after 7 days of completing the physical request worksheet above, you will complete your pre-exam and schedule your appointments. This site is managed by Concorde (a DoDMERB contractor) and provides authorization to local physicians to complete your medical exam. Authorizations expire so you must complete these actions ASAP and ensure you do not miss your appointment. If you cannot make an appointment, it is your responsibility to cancel with the provider. Once your physical is complete, you will track the status at the following website: <https://dodmerb.tricare.osd.mil/Default.aspx>. It is recommended that you check once every 2 weeks for any updates on your physical. You may receive notification of remedials (additional information requested by DoDMERB to complete your physical) via email. Complete these ASAP to ensure your physical is completed in time to meet the Scholarship/PSP boards. If you or your doctor sends the remedial to DoDMERB you must notify the Det medical liaison upon completion. It is recommended that you bring a copy of your remedial to the CRS to be filed into your UPRG.

Cadets who request a DoDMERB physical are indicating their intent to commission and will comply with all required actions in a timely manner. Once you begin this process, you must complete all required actions or notify your instructor *and* the Medical Liaison NCO if you no longer have a desire to pursue a commission. However, once you complete the exam, you are required to see the process through. When the Detachment receives the certified physical (Qualified or Disqualified), you will be notified via AFROTC Form 16. If you are found to be disqualified, you will be placed in Special Student Status.
